As the development of the well-rounded individual is a principal goal of all the curricular as well as extracurricular activities in the college. The numerous experiences these activities afford positively impact students emotional, intellectual, social, and inter-personal development. By working together with other individuals, students learn to negotiate, communicate, manage conflict, and lead others. Taking active part in these activities helps students to understand the importance of critical thinking skill, time management and academic and intellectual competence. Students also develop leadership skills where they anchor the activities and lead the event organised in the institution. Almost all the events held in the college are compered/anchor by the students. Events organised by the students are guided by the faculty/mentors. Some mentoring relationships are part of structured programs that have specific expectations and guidelines others are more informal. Methodology lecturers guide the students in classroom activities through formative assessments as well as summative They give feedback to the teacher trainees in enhancing their skills whereby the re-teach present refined skills.
