This Memorandum of Understanding (MOU) is effective from this Monday of 11-04-2019 and both the colleges agree for collaborations of student and faculty exchanges. The areas of cooperation may include, subject to mutual consent, any desirable and feasible activity that would further the goals of each institution. Such interaction may include cooperation in a various joint academic and educational activities such as:

- Any short term, and certificate course programs
- Faculty and student exchanges based on reciprocity
- Reciprocal placement of students and co-ops, when possible
- Joint conferences, seminars, webinar and workshops
- Team taught courses, including online courses
- Visits by faculty, professional staff, and students.

Both the college anticipates that a number of these initiatives will start after this MOU. However, neither party is obligated to agree to any minimum number of activities, nor is this MOU intended to preclude either party from entering into similar agreement with other institutions.

This MOU shall be identified as the parent document of any program agreement executed between both the colleges. Both the colleges shall prepare and exchange the final transcript of the student's academic performance. For agreed upon activities, both colleges will make available their facilities and staffs.

Either party may withdraw from this MOU provided written notification of the withdrawal is given to the other party. Any dispute or conflict shall be resolved mutually by authorized signatory of both the colleges.

Workshop sessions for effective communication

WORKSHOP SESSIONS FOR EFFECTIVE Communication and interpersonal skills are fundamental to success. The college organised various workshops to improve communication skills among the students using games, contemporary media, thought-provoking discussions and fun techniques. The faculty/mentors lead students from idea development to idea presentation in multi-stage workshops that utilize innovative techniques to teach effective communication skills to participants. Beyond the thinking skills that are developed with improved communication, students will learn how to debate and share their views with their peers in a positive way and with control over their strong feelings, thus improving and strengthening interpersonal relationships. Some of the workshops organised by the college are as follows.

SIMULATED SITUATIONS FOR PRACTICING COMMUNICATION SKILLS IN DIFFERENT SITUATIONS

High fidelity simulation environments provide students with the opportunity to generate, develop and enhance their communication skills and confidence in their own abilities without worrying about compromising patient safety; they also provide students with the chance to practice and correct their mistakes in real time. It has also been clearly shown to improve team behaviours in a wide variety of teaching/learning contexts associated with improved team performance in crisis situations.

Participating in institutional activities as "anchor, discussant" or 'rapporteur'

As the development of the well-rounded individual is a principal goal of all the curricular as well as extracurricular activities in the college. The numerous experiences these activities afford positively impact students emotional, intellectual, social, and inter-personal development. By working together with other individuals, students learn to negotiate, communicate, manage conflict, and lead others. Taking active part in these activities helps students to understand the importance of critical thinking skill, time management and academic and intellectual competence. Students also develop leadership skills where they anchor the activities and lead the event organised in the institution. Almost all the events held in the college are compered/anchor by the students. Events organised by the students are guided by the faculty/mentors. Thus, students learn to plan, organise and conduct events at institutional, inter-institutional levels.

CLASSROOM TEACHING LEARNING SITUATIONS ALONG WITH TEACHER AND PEER FEEDBACK

The knowledge, advice, and resources a teacher/faculty mentor shares depend on the format and goals of a specific mentoring relationship. A faculty shares with a mentee information about his or her own career path, as well as provide guidance, motivation, emotional support, and role modelling. The faculty also help the students with exploring careers, setting goals, developing contacts, and identifying resources. The role of the mentor changes as the needs of the mentee change. Some mentoring relationships are part of structured programs that have specific expectations and guidelines others are more informal. Methodology lecturers guide the students in classroom activities through formative assessments as well as summative. They give feedback to the teacher trainees in enhancing their skills whereby the re-teach present refined skills.
